

## G. ROBERT BRAKENRIDGE

Director, Dartmouth Flood Observatory  
<http://floodobservatory.colorado.edu/>

Senior Research Scientist  
[CSDMS](#), INSTAAR, University of Colorado  
Campus Box 450, Boulder, CO 80309-0450 USA  
Office: 303-735-5485; Cell: 603-252-0659  
Email: [Robert.Brakenridge@Colorado.edu](mailto:Robert.Brakenridge@Colorado.edu)

### EDUCATION

Ph.D. 1982, University of Arizona, Tucson, Geosciences  
M. S. 1979, University of Arizona, Tucson, Geosciences  
B.S. 1975, Beloit College, Environmental Geology  
Postdoctoral Research, 1982 (DAAD Award), University of Düsseldorf, West Germany

### EXPERIENCE

2010-Present Senior Research Scientist, University of Colorado  
1987-2011 Assistant, Associate, Full Research Professor, Dartmouth College, Dept. of Geography; Adjunct Professor, Dept. of Earth Sciences  
1991-1992 JPL/California Institute of Technology Visiting Senior Scientist and Geology Program Manager, Solid Earth Sciences, NASA Headquarters, Washington, D.C.  
1983-1987 Assistant Professor, Dept. Geology, Wright State University

### ACTIVITIES

Co-Chair, with Amy Chong, World Food Program/Dartmouth Flood Observatory/NASA GSFC technical work session, Boulder, CO, August 17-24, 2016.  
SERVIR (NASA and U.S. AID) Technical Assessment Group for surface water and flood extent monitoring, mapping, and modeling, 2016.  
Expert consultation participant on: "Establishing an information system on damage and losses from disasters in crops, livestock, fisheries, aquaculture and forestry", UN Food and Agriculture Organization, Rome, 9-10 June 2016.  
The Flood Observatory participates in GEO, a partnership of 156 governments and international organizations coordinating efforts to build a Global Earth Observation System of Systems (GEOSS).  
Advisory Board, "[Earth2Observe](#)", Global Earth Observation for Integrated Water Resource Assessment. This European Commission-supported project includes 23 EU and 4 non-EU partners. 2014-2017.  
Panel Discussant, The Flood Model Showcase, Sept. 23-24, 2014, The World Bank, Washington DC.

Co-convenor with T. Hopson and T. De Groeve, “5<sup>th</sup> Meeting of the Global Flood Working Group”, May 14-16, 2015, Boulder; 4<sup>th</sup> Meeting, with F. Pappenberger and T. De Groeve, March 4-6, 2014, Reading; 3 previous meetings (College Park; Delft; Ispra). GFP is a network of public, private and international organizations involved in global flood monitoring, modeling and forecasting.

International Working Group on Satellite Emergency Management, Torino, Italy, April 22-23, 2013.

Committee on Earth Observation Satellites, Disaster Risk Management, Flood Team, 2013-Users Working Group, NASA LANCE (Land Atmosphere Near-real time Capability for EOS), 2011-Federal Science Advisory Panel, then Science Working Group, NASA Land Processes Distributed Active Archive (LPDAAC), 2003-2014.

Report Review, for Asian Development Bank Economics Working Paper series, 2012, “Climate-related Disasters in Asia and the Pacific” by V. Thomas, J. R. G. Albert, and R.T. Perez.

Co-Chair, with T. De Groeve, session on Disaster Early Warning, “33rd International Symposium on Remote Sensing of the Environment”, Stresa, Italy, May 5, 2009.

Director, NATO Science for Peace Project, with Romanian and Hungarian government water ministry collaborators, “Monitoring of Extreme Flood Events in Romania and Hungary”, 2003-2007.

Consultant, The World Bank, Agriculture and Rural Development Department, “Innovative Approaches for Flood Risk Management in Agriculture”, 2007.

## **SAMPLE GRADUATE STUDENT ADVISING**

Ph.D. Committee, “Anisotropic Delta Subsidence Measured with Interferometric Synthetic Aperture Radar (InSAR)”. Stephanie Higgins, Dept. of Geological Sciences, Univ. of Colorado, 2014.

M.S. Committee, “Factors affecting inundation and flow hydrology in a high latitude glaciated landscape”, Heather Carlos, Dept. of Earth Sciences, Dartmouth College, 2008.

Ph.D. Committee, “Evaluating the potential for measuring river discharge from space”, David Bjerklie, University of New Hampshire, Dept. of Earth Sciences, 2004.

External Examiner, M. Soc.Sci. “Application of GIS and remote sensing in flood management: A case study of West Bengal, India”, Sanyal Joy, National University of Singapore, 2004.

## **MEDIA AND EDUCATIONAL OUTREACH**

NASA Earth Observatory, 2016: “Ganges Flooding”,  
[http://earthobservatory.nasa.gov/IOTD/view.php?id=88729&eoqn=home&eoci=iotd\\_previous](http://earthobservatory.nasa.gov/IOTD/view.php?id=88729&eoqn=home&eoci=iotd_previous)

USA Today, 2016, “Overwhelmed: Floods ravage fragile system. Deluge sent river flowing backwards and water over roadways and homes”,  
<http://www.usatoday.com/story/news/2016/03/26/overwhelmed-floods-ravage-fragile-system/82219820/>.

Webinar (with A. Kettner) on “Flood mapping and river flow measurements in Latin America and the Caribbean”, October 3, 2014. Co-hosted by GeoSUR, *MundoGEO* and the Dartmouth Flood Observatory (DFO). This presented our project to map floods in near-real-

time and estimate daily river flow using remote sensing. Two hundred specialists from 40 countries participated.

Video Interview at the European Centre for Medium-Range Weather Forecasts (ECMWF) at the 2014 Global Flood Partnership meeting on: [“global flood observations”](#).

Collaborator in *Nurture Nature Center* (Easton, PA) “Rising Waters Project” [Science on a Sphere](#), led by Kate Brandes, supported by NOAA. Project received Media/Outreach National Award from the Association of State Flood Plain Managers, 2013.

*New York Times*, map published using data provided by the Flood Observatory, June 7, 2013, “Flooding along Europe’s Rivers”.

“Natural Hazards Experts Learn First-Hand from the Colorado Storm and Flood”, 2013, *Eos*, v. 94, No. 46, <http://onlinelibrary.wiley.com/doi/10.1002/2013EO460002/epdf>

*New York Times*, map published, January 5, 2011, “Flooded Areas, December 28-January 4, Australia”

*Chicago Tribune*, map published, January 5, 2011, “Underwater Down Under”

*New American Museum of Natural History, NCEP Teaching Modules and online journal*, Images and maps of Mekong Delta flooding, 2010, Network of Conservation Educators and Practitioners.

*New York Times*, August 26, 2010, “Assessing the damage as flooding in Pakistan moves south”

*Earth and Sky*, “A Clear Voice for Science”, 08-18-2008, Is flooding increasing around the world? Earth and Sky talks with Bob Brakenridge, founder of the Dartmouth Flood Observatory in this “Clear Voices for Science” podcast.

*National Geographic News*, “Satellites Can Warn of Floods, Landslides Worldwide, Scientists Say, May 25, 2006.

*New York Times*, September 8, 2005, “Regaining ground”, maps of flooding from Katrina.

*Science Daily*, September 13, 2005, “Dartmouth Flood Observatory Tracks The Aftermath Of Katrina” Researchers with the Dartmouth Flood Observatory have been working with state and federal officials, along with representatives from NGOs, to help map and analyze the flooding”.

*Scientific American*, October 13, 2000, “Satellites help find flood victims”. New surface water images from the MODIS instrument are proving themselves a huge help to researchers monitoring the current flooding in Southeast Asia.

## INVITED TALKS

“GeoSUR/Flood Observatory Collaboration for Water Resources and Flood Hazard Needs”, with E. Van Praag, 9<sup>th</sup> Annual Latin American Faculty Summit, Challenges of Computational Hydrology and the Potential Effects on Policy, Microsoft Research, Viña del Mar, Chile, May 7-9, 2014.

“Satellite Measurements of River Discharge and Runoff”, 9<sup>th</sup> Annual Hydrologic Sciences Research Symposium, Water, Our Global Solvent, University of Colorado, April 3-4, 2014,

“Global Hydrologist in a Local Flood”, National Hydrologic Warning Council, Colorado Advanced Flood Warning System Workshop, Broomfield, CO, February 26, 2014.

“Flood Observatory Data and Services”, Earth Engine and Disaster Risk Meeting, Google Headquarters, Mountain View, CA, December, 2013

“Global Flood Mapping and Measurement”. Deltares Noon Seminars, Delft, Netherlands. Nov. 10, 2011.

“Core-collapse Supernovae and the Younger Dryas/Terminal Rancholabrean Extinctions”, INSTAAR Noon Seminars, University of Colorado, Boulder, CO, Sept. 12, 2011.

“Arctic River Discharge and Ice-cover Using AMSR-E”, Cryospheric and Polar Processes Seminar, National Snow and Ice Data Center, Boulder, Colorado, February 4, 2011.

“Space-based Management of Surface Water”, *The World Bank*, World Water Week, Washington DC, Flood Management Session, February 17, 2009.

“Satellite-based Flood Detection, Mapping, and River Monitoring in Near Real Time”, NASA Earth Science delegate, India-United States Bilateral Conference on Space Science, Applications, and Commerce”, Bangalore, India, June 21-25, 2004.

## **AWARDS**

Certificate of Appreciation, for reviews provided to *Journal of Applied Remote Sensing*, 2012.

Certificate of Appreciation, for “Valuable Contribution and Outstanding Support to the Instrument Incubator Program and the NASA Earth Science Technology Office”, NASA, 2010.

Group Achievement Award, “Outstanding Achievement in the Development of an Operational Earth Observing Sensorweb, Integrating Space and Ground Sensors”, NASA Administrator, 2007.

## **SERVICE**

*Performance/promotion reviews* (academic tenure, or advancement to senior scientist), 2008-present.

*Peer Reviewer* for *GSA Bulletin*, *Geology*, *Jour. of Geophys. Res.*, *Jour. of Geophys.-Planets*, *Geophys. Res. Letters*, *Water Resources Res.*, *Quaternary Res.*, *Nature*, *Geomorphology*, *Geoarchaeology*, *Jour. Hydrometeorology*, *Remote sensing of the Environment*, *Physical Geography*, *Hydrological Sciences*, *Int. Jour. Remote Sensing*; other journals and book manuscripts, 1984-present.

*Peer Reviewer*, NSF, NASA, other national and international grant proposals: geology, hydrology, remote sensing, including review panels, 1984-present. Most recent: NASA Satellite Science Team review panel, 2015.

*Fellow*, Geological Society of America; *Member*, American Geophysical Union

*Elected Board Member*, Dresden and Hanover School Districts, New Hampshire and Vermont, 1997-2001.

## **PUBLICATIONS**

(\*abstract and lecture or poster; others are peer-reviewed articles or technical reports)

### **2017**

Andreadis, K. M., Schumann, G. J-P, Stampoulis, D., Bates, P.D., Brakenridge G. R., and Kettner, A.J., 2017, submitted, Can atmospheric reanalysis datasets be used to reproduce flooding over large scales? *Geophysical Research Letters*.
